

DEERFIELD COMMUNITY SCHOOL DISTRICT PROJECT PROGRESS REPORT

March 2024 Update

PRELIMINARY RENDERING OF BAND/CHOIR ROOM

PRELIMINARY RENDERING OF SCIENCE LAB

WHAT'S NEW?

The past three months consisted of the final phase of the building design process. The district team, alongside Bray Architects and Vogel Bros. Building Co., worked through some of the more detailed portions of the planning process. For example; electrical outlet locations, lighting fixtures, and how the new plumbing fixtures will operate. The design team at Bray worked hard to make sure all of the construction details were developed, and the Vogel Bros. Building Co. team closely monitored and analyzed the progress to fine tune the schedules and budgets to maximize the success of the project. The final drawings and specifications were put together and sent out for sub-contractor bids as a start to the construction phase.

PROJECT TIMELINE

Sub-contractor Bids Due - Mid-March

Construction "Mobilization" - Late-March

Site and New Addition Construction Begins - April-May
(largely depending on weather)

Interior Renovation and Construction Begins - June (after school lets out)

PLANNING & DESIGN UPDATE

The focus has now been shifted to new interior furniture arrangements and selections as part of the referendum project. This includes interior design meetings that discuss impactful graphics that are placed throughout the building - this is referred to as "environmental branding."

WHAT'S NEXT?

- » Sub-contractor bids will be reviewed, qualified, and accepted
- » New interior furniture selection process will continue
- » Interior design meetings related to environmental branding will begin
